How to Make a Fast Pinewood Derby Car

Tips from BoysLife Magazine

- Avoid designs with a pointed nose
Leave enough wood in the rear of the pinewood derby car so you can place additional weight there.
Make the maximum weight (5oz)
Be sure that it is very clear which end of your pinewood derby car is the front and which end is the back.
Pinewood derby cars with aerodynamic profiles go faster.
Consider Polishing Your Axles and Wheels
Bake the Block

Visit the Boys Life Website for the Full Article: https://goo.gl/2EoydW
